Our Week of Learning

Reading - In reading this week, the children read George and Martha: The Surprise. This is a silly story about two hippos that are friends, George and Martha. Then we read a nonfiction story called Hippos. After reading both stories we worked on the strategy of comparing and contrasting. We used a venn diagram to compare these two stories.

Word Study - This week we finished our review study of short vowels with short o **and** short e.

Math - We began Chapter 2 this week, which is called Numbers to 1000. We worked on grouping tens as hundreds, writing a 3-digit number for a group of tens, and showing a 3-digit number using base ten blocks.

Writing - This week we started off by reviewing everything we've talked about during our small moment writing so far. This is when we focus on a small moment,, zoom in on details, start with a catchy beginning and finish with a good ending, use strong words, use capitals at the beginning of a sentence and punctuation at the end, and a few other things. Then we used a checklist to check our writing for all of these things. The children set personal goals to work on to make their writing better. They will choose one story to rewrite into final form..

Science - We began our next investigation on liquids this week. Here are some of the focus questions we worked on: 1. How are liquids different from each other? 2. How can liquids be described? 3. How do liquids change in containers? Hopefully, Next week we will get to go outside and find liquids in our environment (puddles!). See if your child can tell you properties of liquids you have in the home (ketchup, soap, juice, etc.)

Important Dates

FAST testing has been completed. This is the state-mandated reading assessment to determine whether or not a child is reading proficiently at grade level. I will be sending the results home next Friday.

Thurs., Sept. 28 – 1:32 Dismissal

Week of Sept. 25 - Homecoming Week

Mon., Oct. 9 – NO SCHOOL - PD

Fri., Oct. 13 – Lakeview Pride Day

Wed., Oct. 18 – Picture Retakes

Specials

Mon. DAY 5 ART
Tues. DAY 6 MUSIC/SS
